

### The Client:

Space Gateway Support (SGS), Kennedy Space Center—  
Provides launch support operations for NASA and the  
U.S. Air Force

### The Challenge

*Managing workplace safety and worker health for approximately  
20,000 Cape Canaveral Spaceport employees*

### The CHS Response

*Integrated data collection and results tracking  
using state-of-the-art field equipment, providing:*

- Real-time heat stress reports
- Asbestos inventory
- Material safety data sheets
- Additional environmental health information  
available via the Internet

### The CHS Difference

*Best practices that yielded an annual cost savings of \$300,000  
since 2000*

*A proactive approach that corrects risks before problems occur.*

*Every year CHS conducts:*

- 2,000+ environmental reviews
- 1,450 hazardous waste determinations
- 600 health hazard evaluations and exposure investigations
- And processes 10,000+ environmental samples

### The Challenge:

As part of its responsibilities, Comprehensive Health Services (CHS) is required to provide environmental and workforce health services to approximately 20,000 employees of the Cape Canaveral Spaceport for NASA and the U.S. Air Force, maintaining a healthy and environmentally-compliant workplace. CHS works closely with SGS, NASA and the U.S. Air Force to meet this challenge.

### The CHS Response:

CHS uses state-of-the-art field equipment to support an integrated team of 100 well-qualified:

- Industrial hygienists
- Health physicists
- Environmental engineers
- Specialists
- Hydrologists
- Support staff

The team also offers a variety of valuable environmental health information such as asbestos inventory, real-time heat stress reports and material safety data sheets (MSDS), available via the Internet.

# The CHS Difference

Data is collected into a common database for archiving, report production and suspense recording. This provides an integrated view of risk factors across the workplace and across the workforce. Risks can be spotted much earlier so they can be corrected before accidents or problems occur. Every year, CHS conducts over 2,000 environmental reviews, 1,450 hazardous waste determinations, 600 health hazard evaluations and exposure investigations, and processes over 10,000 environmental samples. Plus, the integrated data collection enables CHS to track and document the effectiveness of risk abatement and prevention efforts. Since 2000, CHS has employed a set of *best practices that has saved SGS approximately \$300,000 annually.*

## About CHS

Founded in 1975, Comprehensive Health Services, Inc. (CHS) is a leader in the management of nationwide workforce health programs. We offer major corporations and government agencies flexible, customized employee health services, from pre-placement and fitness-for-duty exams to workers' compensation, disability and case management, medical surveillance, and wellness and health promotion programs.

CHS is the only major firm with a broad, three-fold service delivery capability—worksites health programs, an extensive national network of health care providers, and medical readiness teams. This approach enables us to build the most flexible and ideal workforce health programs to fit the special needs of each client's workforce demographics, health risks, and productivity goals. *Our services are available individually, in clusters, or as a single, comprehensive and seamless employee health program.*

- Onsite Health Centers
- Medical Exams
- Wellness & Health Promotion
- Absence Management
- Environmental Health & Safety

We partner with our customers to understand their businesses and build customized solutions that put employees first. CHS' proactive, comprehensive approach—refined by best practices built on decades of experience—helps customers maintain a healthier, more stable and productive workforce.
