## APPROXIMATELY 217 MILLION DAYS OF WORK ARE LOST ANNUALLY,

due to productivity decline related to mental illness and substance abuse disorders, costing United States employers \$17 billion each year, according to a study conducted by Pfizer. *(Hertz RP, Baker CL. The Impact of Mental Disorders on Work. Pfizer Outcomes Research. Publication No P0002981. Pfizer; 2002)*

Founded in 1975, Comprehensive Health Services, Inc. is one of the nation's largest and most experienced providers of workforce medical services. We partner with Fortune 1000 companies and the U.S. government to solve the highly complex, large-scale health care challenges they face by implementing and managing cost-effective, customized medical programs for large and dispersed workforces.

As part of maintaining a healthy and productive workforce, Comprehensive Health Services provides psychological testing to clients on request, usually as part of an overall medical services testing program.

### Our services include:

- Review of medical records by a forensic psychiatrist who is a member of our network
- In-person evaluation by either a forensic psychologist or forensic psychiatrist
