Workforce Health Solutions Made Easy

# Program Management

We are a leading global provider of technology-enabled, high-quality workforce medical exams and program management. Our scalable delivery model is capable of providing tailored services that address the full spectrum of customer requirements. We help solve the highly complex, large-scale health care challenges faced by government agencies and Fortune 1000 companies.

We can manage every aspect of your workforce medical program efficiently due to our vast network of health care professionals and our extensive experience.

Since 1980, we have provided program management and a wide range of comprehensive medical services to the U.S. government domestically, including pre-placement screenings, medical surveillance (including

Occupational Safety and Health Administration), Department of Transportation certification exams, and fitness-for-duty examinations. We also operate onsite health clinics for the U.S. government and prime contractors.

Since 2007, the U.S. government and prime contractors have turned to us for medical services and program management overseas to maintain employee health and medical readiness. We provide a wide range of medical services overseas, including managing and staffing onsite health clinics and hospitals for the U.S. government and prime contractors.

“ Clients often come to us with a specific medical need. They stay with us because we can provide a complete and comprehensive solution. ”

Dr. Joe Mignogna, Chief Medical Officer
